SIGHTSEEING

Málaga - Alcazaba Castle and Picasso Museum. Students also had the opportunity to visit Caminito del Rey - a spectacular route running between gorges, canyons and the great valley of the Desfiladero de los Gaitanes natural park,

IS IT WORTH ORGANISING AN APPRENTICESHIP ABROAD?

TEACHER'S OPINION

Yes of course. The vast majority of participants for internships abroad agree that they have developed, above all, practical skills, but not only. The students of our school also showed entrepreneurship, awareness of preferred learning styles as well as technical and scientific knowledge. Our foreign partners unanimously emphasized that the interns from ZST are great at carrying out the assigned work. Teachers-tutors took great pride in listening to very positive feedback.

Gabriela Smyczek-Iądro

IS IT WORTH TAKING PART IN FOREIGN INTERNSHIPS??

STUDENTS' OPINION

Of course it is worth it! Internships abroad taught us how to cope in a new place, working with new people.

We were able to learn about the freight forwarding profession from the practical side and acquire skills that we would not have had the opportunity to acquire at school.

We learnt how to operate different machines, we learnt about the goods classification system and we learnt how to use it.

Thanks to the internships, we also improved the ability to communicate in English, which we used in Lisbon on a daily basis.

Martyna & Nikola

SUMMARY

The project 'European apprenticeships for students of the Rybnik TYGIEL' ended on 30 September 2022. Due to the pandemic, its implementation period was extended by 12 months. As a result, all planned visits were completed.

SUMMARY

The 53 students received support in the form of preparatory courses in the language of the country where the internships took place, vocational English and classes with a psychologist and a career counsellor. Support was also provided for travel costs, accommodation and meals, city transport costs, excursions budgeted by the sending and intermediary organisation. The remaining amount from individual support and travel costs was paid to the participants as 'pocket money'. Each student also received certificate confirming the internship abroad and a 'Europass Mobility' document..

THANK YOU FOR YOUR ATTENTION
